

Meet MCC Scholarship Recipient Nancy Robertson!

Nancy is the proud recipient of a 2016 Mary Porcari Brady Nursing Continuing Education Scholarship

I selected Monroe Community College because it is a highly-regarded program with excellent NCLEX pass rates. Sponsors like yourself help keep the program strong. I have so enjoyed the curriculum and the teachers this semester and look forward to starting my career this spring. This scholarship will enable me to take a few classes at MCC that I can apply to my BSN.

Thank you again for the lovely gift. I promise to make it worthwhile, and to pay it forward when my opportunity to do so arrives.

Sincerely,

Nancy E. Robertson

I have participated in many ways during my education. I work part time at the Damon Campus and often speak to many aspiring high school students who want to become nurses. In addition, I am an active member in SNA. I worked on a Scholar's Day project and presented it with my husband. Our research continues and time allows. I also tutor other nursing students in the Learning Center. To gain additional healthcare exposure I volunteer as an Ambassador at Rochester General Hospital and a hands on caregiver at the Advent House hospice. During my time at MCC, I have been exposed to so many nursing options. The opportunities are overwhelming! The main goal is to do good and help people. I have interest in hospice, palliative care, oncology, mental health and endocrinology. I also find the OR a fascinating place and it speaks to my need for process and attention to detail. I am not sure where I will be working after graduation. I do know I will be working and completing my BSN and then move towards my MSN. Whatever job I will be doing, I will be performing to the best of my ability, continuing to learn and giving back.

Age: 49
Hometown: Fairport, NY
Major: Nursing
GPA: 3.14
